

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

30 Day Public Notice Report

Application # : FW-24603

Stream : Locust Creek

Applicant : Roger Schmitt
1276 South State Road 257
Washington, IN 47501-7748

Description : A project of an 800' by 190' area to be filled in north floodway of Locust Creek for dump trucks to enter and exit site used for temporary stockpiling of asphalt to recycled is proposed. Specific project information will be added to the description as the application is further reviewed. Details of the project are contained in information and plans received at the Division of Water on November 8, 2007 and December 13, 2007.

Location : Approximately 1075' east of the Saint Joseph Avenue and Allen Lane intersection, extending 1000' east and 1200' south
DOWNSTREAM: near Evansville, Center Township, Vanderburgh County
N½, NW¼, Section 13, T 6S, R 11W, Evansville North Quadrangle
Quad Code: 3808715
UTM Coordinates: Downstream 4206597 North, 447961 East
UPSTREAM: Vanderburgh County

UTM Coordinates: Upstream 4206504 North, 447622 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

30 Day Public Notice Report

Application # : FW-24651

Stream : Little Elkhart Creek

Applicant : Five Lakes Conservation Association
PO Box 304
Wolcottville, IN 46795-0304

Description : Approximately 290' of Little Elkhart Creek's eroded streambank will be stabilized using evergreen tree revetments placed at the toe of the slope at or below the ordinary highwater mark. The evergreen trees will be anchored into the streambed and bank with duckbill anchors and steel cable. The trees, which have a maximum DBH of 6", will be placed within this section of the stream that is 18' wide. A 12' buffer of native plants and shrubs will also be planted along the banks above the ordinary highwater mark immediately adjacent to this 290' section of the Little Elkhart Creek. Details of the project are contained in information received electronically at the Division of Water on December 21, 2007 and in plans and information received at the Division of Water on

Location : Project boundary is located along the Little Elkhart Creek approximately 120' upstream and to the east of the SR9 bridge in Wolcottville. The project site continues upstream for approximately 290' and is located within the Wolcott Park near Wolcottville, Johnson Township, LaGrange County
Section 34, T 36N, R 10E, Wolcottville Quadrangle
Quad Code: 4108553

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

30 Day Public Notice Report

Application # : FW-24653

Stream : West Fork White River

Applicant : Leo Brown Group, LLC
Phillip Knickrehm
9800 Association Court
Indianapolis, IN 46280-1962

Description : Approximately 575 cubic yards of root wads and limestone shot rock will be placed along 300' of the White River below the ordinary highwater mark. Of this total approximately 350 cubic yards will be shot rock. Fifty root wads (approximately 225 cubic yards) will be retrieved from the river or from adjacent mining activities and installed with the riprap. The toe of slope will be extended no more than two feet into the existing channel. A floodplain shelf will be established at the existing ordinary highwater mark level. The top of bank will be sloped down to this ordinary highwater mark shelf on a 2:1 slope. The slope will then be seeded with native vegetation and covered with erosion control matting. Details of the project are contained in information received electronically at the Division of Water on December 21, 2007 and in plans and information received at the Division of Water on

Location : 9800 Association Court; the project site will extend approximately 300 feet along the east bank of the West Fork White River
near Mooresville, White River Township, Johnson County
Section 12, T 13N, R 2E, Mooresville East Quadrangle
Quad Code: 3908653

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

30 Day Public Notice Report

Application # : FW-24654

Stream : Miller Ditch

Applicant : LaPorte County Highway Department
Rick McVay
1805 West 5th Street
LaPorte, IN 46350-4651

Description : The existing reinforced concrete girder bridge carrying CR 500 South over Williams Lateral of Miller Ditch will be replaced with a new structure on essentially the same alignment to improve the structural conditions and stream flow. The new structure will be a single span bridge with a span lengths of 71ft. The structure will have an out-to-out width of 33ft and a clear roadway width of 30ft. The spill through abutments will have 2:1 sideslopes armored with revetment riprap over geotextiles. The abutments and piers will have no skew to align with the streamflow. The new approach roads will be elevated a maximum of 4ft above the existing approaches. The existing structure will be completely removed. The project is locally funded. Details of the project are contained in information received electronically at the Division of Water on December 28, 2007 and in plans and information received at the Division of Water on

Location : At the CR 500 South Crossing of the ditch which is the LaPorte/St. Joe county line
near North Liberty, Lincoln Township, LaPorte County
Section 26, T 36N, R 1W, North Liberty Quadrangle
Quad Code: 4108654

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-24655

Stream : Slough Creek

Applicant : Jasper County Drainage Board
Kevin M. Arnold
115 W. Washington St. Suite 110
Rensselaer, IN 47978-2829

Description : Approximately 65,500 ft of Slough Creek will be dredged to a depth of 2-3 ft to restore the channel to its original configuration. The dredging will be performed by a floating hydraulic dredge. The removed brush will be burned, the excavated material will be placed within the legal drain easement, but a minimum of 10' landward of the top of bank and spread evenly to a thickness not to exceed 6" and slope landward away from the channel. Some limited bank stabilization is expected. Details of the project are contained in information received electronically at the Division of Water on December 28, 2007 and in plans and information received at the Division of Water on

Location : Along Slough Creek beginning approximately 3,600' west of County Road 780W and continuing upstream to County Road 310E, the Jasper County limits. Upstream end located in Section 9, Township 28N, Range 5W, Milton Township. Downstream end located in Section 2, Township 28N, Range 7W, Marion Township
near Rensselaer, Marion Township, Jasper County

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

30 Day Public Notice Report

Application # : FW-24656

Stream : Carmel Creek

Applicant : Duke Realty
Blaine J. Paul
600 East 96th Street
Indianapolis, IN 46240

Description : A commercial parking lot expansion will be developed along the west (right) bank of Carmel Creek to provide additional parking. The facility will consist of a 380 ft by 100 ft parking lot placed near grade and two entrance ramps which will be elevated by fill. The fill will cover approximately 100 ft by 25 ft areas apiece and will vary in depth from 9 ft at the landward edge to 0 ft near the stream. The edge of the parking lot will be set back 50 ft from the top of the streambank and will have a finished elevation of between 724 and 726 ft, NAVD 29. The fill will have 3:1 sideslopes from the finished grade down to the existing floodplain elevations. The parking area will be constructed to the finished elevation of the fill. Details of the project are contained in information received electronically at the Division of Water on December 31, 2007 and in plans and information received at the Division of Water on

Location : The project is in the west overbank of Carmel Creek, south of 96th street and north of I-465 on the left (east) side of the road immediately before I-465 at Indianapolis, Washington Township, Marion County Section 17, T 17N, R 4E
